INVITE: SATURDAY 14 OCTOBER 10.30AM – 4.30PM
The Coach House, Green Park, Aston Clinton, HP22 5NE

YOU ARE INVITED TO ATTEND A SAFEGUARDING REVIEW AND NETWORKING EVENT FOR FRONTLINE YOUNG PEOPLE’S SERVICES IN BUCKINGHAMSHIRE

The Buckinghamshire Safeguarding Children Board (BSCB) is hosting an event for front line professionals from a number of commissioned and voluntary sector youth organisations relating to one of the findings from the recent Serious Case Review (SCR) into Child Sexual Exploitation (CSE) in Buckinghamshire.

The review recognised that frontline organisations working with children and young people are in a good position to spot potential concerns relating to CSE and be part of the support put in place for children and young people. However these organisations were not always informed about what action was being taken after a referral to Children’s Social Care and were not actively engaged as part of the support being put in place.

The purpose of the event will be to:

• Explore in more detail the type of information and knowledge staff and volunteers hold and when and how this can be effectively used to safeguard children.
• Share good practice in relation to safeguarding in your organisations and positive examples of engagement / joint working with statutory services.
• Explore any particular challenges to recognising and reporting concerns that are faced by youth organisations.
• Network and develop links with other youth sector organisations and share good practice and resources.

Please RSVP to confirm your attendance to Carol Gorley, BSCB Administrator, (cgorley@buckscc.gov.uk) providing your name, organisation you work for and an email address for any further information.

Please also indicate if you would be interested in promoting your organisation as part of the partners market stall and networking session and we will reserve you a table.

Refreshments and lunch will be provided to delegates. Joining instructions including requests for dietary requirements and an agenda for the day will be circulated at a later date.
